A Newsletter For MVCC Volunteers

SANTA CLAUS IS COMING TO TOWN

Television viewers throughout the Miami Valley have one more free family-fun holiday event to mark on the calendars. The live Santa Call-In show returns for one day only, Sunday, December 11th from 5:00pm to 8:00pm. The program will be shown simultaneously on four cable channels: Channels 5, 6, 21, and 991 for Spectrum Cable (**Dayton South**) subscribers, Channel 99 for AT&T U-verse subscribers, Dayton Access Television (**DATV**) on Spectrum Cable (**Dayton North**) channel 5, as well on Beavercreek TV Spectrum (**Dayton East**) channel 5 and AT&T U-verse channel 99.

For 41 years, Santa Call-in has given children the opportunity to talk live with Santa by calling in during the live broadcast. Santa's assistants will help callers while they prepare to speak on the air. Santa's television show will also be

accompanied with holiday scenes from around the Miami Valley. Visit www.mvcc.net/Santa for a countdown clock showing the days until Santa Call-in! For more information on Santa Call-In, including opportunities to volunteer with this year's production, contact MVCC show producer Joe Mackenzie at jmackenzie@mvcc.net or give him a call at **937-424-1665**.

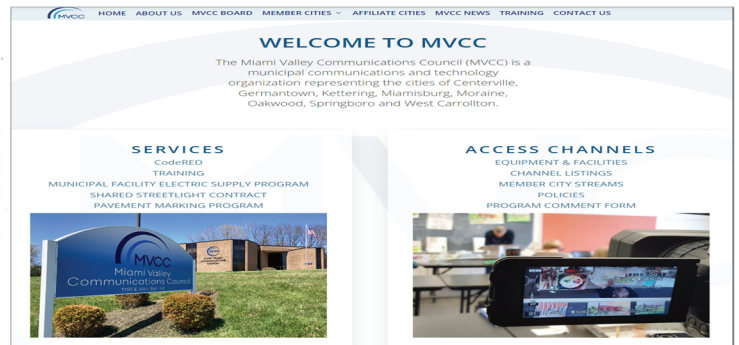

MVCC ENGINEER HEADING BACK HOME

Want to hear what's happening at your local access television station? Tune in to The MVCC Podcast, for news, previews, and interviews with content creators here in the Miami Valley.

On Episode #14, host Richard Diaz is joined by MVCC Chief Engineer Nick Evert. Evert has been described as the heart of the television department, managing an entire building of video and computer equipment. Along the way, he's extensively rebuilt the programming room, setting up the podcast center, and remodeled the MVCC kitchen.

While staff will definitely miss his positive attitude and brilliance with technology, we are happy his new job allows him to be closer to family.

Watch the latest podcast, On-Demand at www.mvcc.video.

THE ALL NEW MVCC.NET WEBSITE

Residents of Centerville, Germantown, Kettering, Miamisburg, Moraine, Oakwood, Springboro, and West Carrollton, will now be able to navigate that extensive list of offered services much easier, thanks to the all-new MVCC website, www.mvcc.net.

Channel listings, on-demand video streaming, OLSOLVE CodeRED emergency notification information, municipal committee details, volunteer news/opportunities and class registration, are just some of the features that can be launched from the main page. For MVCC, the goal was to showcase this umbrella of services to citizens and make the content easier to navigate. Volunteers and local media producers will notice that tools and resources they need can be readily found on the main page.

For questions or more information, contact Tom Spahr at tspahr@mvcc.net or (937) 424-1668.

A PRODUCTION TIP FOR 2023

When talking into a microphone isn't exactly like talking without one. You'll sound a lot better if you follow a few simple tips on future productions...

1) You need to talk right into a mic for good sound quality, but you don't want to put your lips right on the mic. Too close, and you'll sound like you're right in everyone's ear. Too far, and you'll sound like you're on the other end of a hallway. It's best to talk within 6 to 8 inches from a microphone.

2) It's easy to forget yourself, turn your head, and talk toward the person next to you while the mic barely picks you up. If you're holding a free mic, just move the mic along with your head. If you're talking into a fixed microphone, you need to stay a little unnaturally pointed toward the mic.

3) Keep your volume steady throughout a production. If someone's actively operating the sound equipment, they can boost your voice a bit more, but only so far before the mic is picking up other sounds too. It's still your job not to mumble.

William Pace Show

MONDAY'S AT 5:30PM

FRIDAY'S AT 7:30PM

PROGRAM PROMOS AND ID'S

Want to get the word out about your shows? Producers who have a weekly or monthly time slot can have a :10, :30 and/or a :60 second promo video(s) to promote your community or educational programs on CATV 991 and educational programs on EATV 21.

This is your chance to let your audience and the community know where and when to tune in. Promos will air throughout the week on CATV or EATV, as well on the channel's message boards.

For more information on producing or scheduling show promos, contact Mike Sopronyi at msopronyi@mvcc.net.
